1. Organization Overview

Name

TeamKrag

Brief History

TeamKrag is a modern automotive stance crew formed by a group of passionate car enthusiasts who specialize in modified vehicles, particularly those with lowered suspensions such as air suspension (bagged setups) and static builds.

The crew was created to bring together individuals who share a love for stance culture, providing a platform to showcase builds, exchange ideas, and participate in automotive events. Over time, TeamKrag has developed a strong identity within the local car community and continues to grow its presence through events, social media, and collaborations.

Mission Statement

To create a dynamic and inclusive community for stance car enthusiasts by promoting creativity, individuality, and high-quality automotive builds.

Vision Statement

To establish TeamKrag as a leading automotive lifestyle brand recognized both locally and internationally for its influence in the stance scene and its high-quality merchandise and events.

Target Audience

- Young adults (18-35 year olds)
- Automotive enthusiasts interested in stance culture
- Car modifiers (bagged, static, and custom builds)
- Social media active individuals
- Attendees of car meets, park-off shows, and automotive events

2. Website Goals and Objectives

Goals

- Promote TeamKrag as a recognized stance crew brand
- Sell branded merchandise online
- Increase membership registrations
- Provide information about upcoming events hosted by TeamKrag
- Strengthen the community and online presence

Key Performance Indicators (KPIs)

- Number of website visitors per month
- Number of membership sign-ups
- Merchandise sales and revenue
- Social media link clicks and engagement
- Event page visits and registrations

3. Current Website Analysis

TeamKrag currently does not have an official website. Their presence is primarily based on social media platforms, which limits their ability to centralize information, manage memberships, and sell merchandise efficiently.

The lack of a dedicated website presents an opportunity to create a professional online platform that enhances visibility, improves user engagement, and supports business growth.

4. Proposed Website Features and Functionality

The TeamKrag website will include the following key pages and features:

Pages:

- **Home Page:** Overview of TeamKrag, featured cars, and highlights
- **About us:** Information about the crew and its background
- **Membership Page:** Sign-up form for new members
- **Merchandise Page:** Online store for branded clothing and accessories
- **Events Page:** Details of upcoming and past events
- **Contact Page:** Contact form and communication details

Functionality:

- Online membership registration system
- E-commerce functionality for merchandise purchases
- Social media integration (links to platforms)
- Event listings and updates
- Responsive design for mobile and desktop users
- Secure contact form for inquiries

5. Design and User Experience

Colour Scheme

A bold and modern colour palette will be used to reflect the automotive culture, such as:

- Black (primary background)
- White (text for contrast)
- Accent colours like red or neon tones for highlights

Typography

- Clean, modern fonts for readability
- Bold headings to create visual impact
- Clear hierarchy to guide users through the content

Layout and Design

- Minimalistic and visually striking layout
- High-quality images of cars and events
- Grid-based design for showcasing vehicles and merchandise
- Consistent branding across all pages

User Experience

- Easy navigation with a clear menu structure
- Fast loading times
- Mobile-friendly (responsive design)
- Simple and intuitive user journey
- Clear call-to-action buttons (e.g., “Join Now”, “Shop Now”)

Wireframes

Homepage:

Shop page:

6. Technical Requirements

The website will be developed using the following technologies:

- HTML for structure
- CSS for styling and layout
- JavaScript for interactivity and dynamic features

Additional Requirements

- Web hosting service to store the website
- Domain name (e.g., www.teamkrag.com)
- Basic security features (e.g., form validation)
- Compatibility with modern web browsers

7. Timeline and Milestones

Phase	Duration	Description
Planning & Research	Week 1	Define requirements and goals
Design	Week 2	Create wireframes and visual design
Development	Weeks 3-4	Build website using HTML, CSS, JavaScript
Testing	Week 5	Test functionality and fix issues
Launch	Week 6	Deploy website and make it live

8. Budget

The estimated budget for the development, hosting, and maintenance of the TeamKrag website is outlined below:

Development Costs:

Item	Estimated Cost
Website Design (UI/UX)	R3000
Front-end Development (HTML, CSS, JavaScript)	R4000
Testing and Debugging	R1000
Total Development Cost	R8000

Hosting and Domain Costs:

Item	Estimated Cost
Domain Name Registration (per year)	R150
Web Hosting (per year)	R1200
Total Hosting Cost (Annual)	R1350

Maintenance Costs:

Item	Estimated Cost
Website Updates and Content Management	R500/month
Technical Maintenance and Support	R500/month
Total Monthly Maintenance	R1000/month

Total Estimated Cost:

- Initial Cost (Development + Hosting): R9,350
- Ongoing Cost (Maintenance): R1,000 per month
