# 1. Organization Overview

## Name

KlawedUp

## Brief History

KlawedUp is an emerging nail brand specializing in high-quality, handmade press-on nails. The business was founded out of a passion for nail art and creativity, with the goal of providing stylish, affordable, and reusable nail sets for individuals who want salon-quality nails from the comfort of their homes.

The brand focuses on combining convenience with aesthetics, offering a variety of trendy and custom-designed press-on nails suitable for different occasions and personal styles.

## Mission Statement

To provide high-quality, stylish, and reusable press-on nails that allow customers to express their individuality with convenience and confidence.

## Vision Statement

To grow KlawedUp into a recognized beauty brand known for creativity, quality, and innovation in the press-on nail industry.

## Target Audience

- Young women (ages 16–35)
- Beauty and fashion enthusiasts
- Students and young professionals
- Individuals looking for affordable alternatives to salon nails
- Social media users interested in beauty trends
- Mothers who do not have the time to sit in a chair for 2 hours for a pretty nail set

## 2. Website Goals and Objectives

### Goals

- Sell press-on nail sets online
- Promote the brand and showcase nail designs
- Allow customers to place custom orders
- Increase brand awareness through online presence
- Build a loyal customer base

### Key Performance Indicators (KPIs)

- Number of website visitors
- Number of purchases made
- Customer retention rate
- Social media engagement
- Number of custom order requests

## 3. Current Website Analysis

KlawedUp currently does not have a website and relies on informal platforms such as social media for showcasing products and communicating with customers.

This limits the ability to manage orders efficiently and present the brand professionally. A dedicated website will improve accessibility, organization, and customer experience.

## 4. Proposed Website Features and Functionality

### Pages

- **Home Page:** Brand introduction and featured nail sets
- **Shop Page:** Display and purchase press-on nails
- **Custom Orders Page:** Form for personalized nail requests
- **About Page:** Story behind the brand
- **Contact Page:** Email and enquiry form

### Functionality

- E-commerce system for purchasing nail sets
- Custom order submission form
- Image gallery for showcasing designs
- Secure checkout process
- Social media integration
- Mobile-friendly design

## 5. Design and User Experience

### Colour Scheme

- Soft pink
- White
- Nude tones
- Gold accents (for a luxury feel)

### Typography

- Elegant and modern fonts with calligraphy for accent texts
- Clean and readable text
- Stylish headings for branding

## Layout and Design

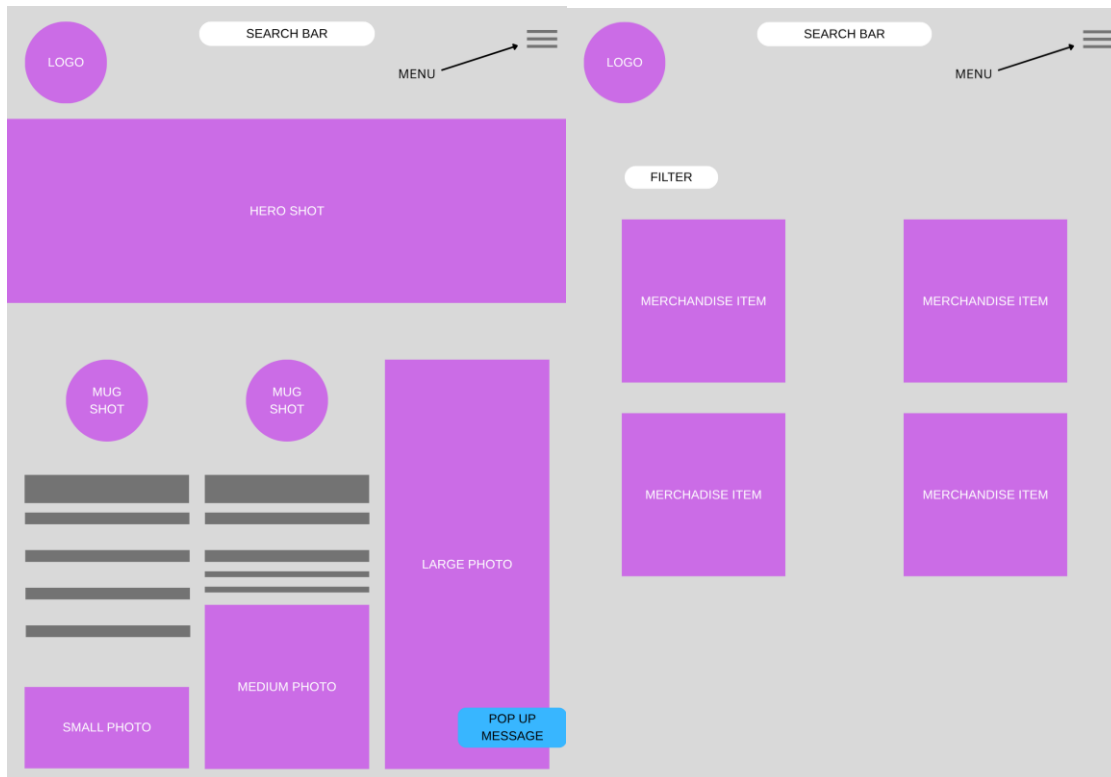

- Minimalistic and aesthetic layout
- High-quality images of nail sets
- Grid display for products
- Consistent branding across all pages

## User Experience

- Easy navigation
- Fast loading speed
- Mobile responsiveness
- Simple checkout process
- Clear call-to-action buttons (e.g. “Shop Now”, “Order Custom Set”)

## Wireframes

Basic wireframes will be created to outline the layout of key pages such as the homepage, shop page, and custom order form.

## 6. Technical Requirements

- HTML (structure)
- CSS (styling)
- JavaScript (interactivity)

### Additional Requirements

- Domain name (e.g. [www.setbytwinails.com](http://www.setbytwinails.com))
- Web hosting service
- Secure forms for customer orders
- Browser compatibility

## 7. Timeline and Milestones

| Phase       | Duration  | Description                |
|-------------|-----------|----------------------------|
| Planning    | Week 1    | Research and requirements  |
| Design      | Week 2    | Wireframes and layout      |
| Development | Weeks 3-4 | Build Website              |
| Testing     | Week 5    | Debugging and improvements |
| Launch      | Week 6    | Website goes live          |

## 8. Budget

### Development Costs

| Item           | Cost         |
|----------------|--------------|
| Website Design | R2500        |
| Development    | R3500        |
| Testing        | R1000        |
| <b>Total</b>   | <b>R7000</b> |

## Hosting Cost

| Item         | Cost              |
|--------------|-------------------|
| Domain       | R150/year         |
| Hosting      | R1200/year        |
| <b>Total</b> | <b>R1350/year</b> |

## Maintenance

- R800/month for updates and support

## Total

- Initial: R8,350
- Monthly: R800
